

# TXDOT CONSTRUCTION ENGINEERING AND INSPECTION

## INTERSTATE 20 INTERCHANGE PARKER COUNTY

FNI provided construction management, inspection and LGPP services for the construction of the new interchange of Interstate 20 and the Ric Williamson Memorial Highway in Parker County. Our team's management of the project resulted in project completion 30 days ahead of schedule and a successful final audit.

**FREESE AND NICHOLS** is actively pursuing Texas Department of Transportation (TxDOT) Construction Engineering and Inspection (CEI) contracts. As part of our pursuits, our staff identify and evaluate potential CEI contracts across the state where we might pursue as a prime, sub, or as a joint venture.

FNI has more than 30 professionals with precertifications for the major work categories commonly found in CEI RFQs.

Our team has employees who can be listed as task managers and supporting personnel.

10.2.1 – Basic Hydraulic Design

11.1.1 – Roadway Construction Management and Inspection

11.2.1 – Major Bridge Construction Management and Inspection

14.1.1 – Soil Exploration

14.2.1 – Geotechnical Testing

## STATE HIGHWAY 288 BRAZORIA COUNTY

FNI provided the fast-track design for a 1.7-mile, estimated \$20 million segment of the county's 5.2-miles of the project. The design included four-lane toll lanes, longitudinal and lateral storm system, widening of existing main lanes and ramps, ramps for the toll lanes, five detention ponds, the relocation of two U-turns at FM 518 bridge, and MSE wall relocation.

## OUR CONSTRUCTION SERVICES

With more than 50 dedicated employees, Freese and Nichols has one of the largest full-time construction management teams in Texas.

FNI also has more than 40 personnel who can serve as task managers and/or supporting personnel for the most commonly used NLC Categories, which include:

- Utility Adjustment Coordination
- Environmental Inspection
- Utility Construction Management and Verification
- Construction Scheduling Support
- Utility Engineering

Freese and Nichols, Inc. is a professional consulting firm serving clients across the Southwest and Southeast United States. With sustainability in mind, Freese and Nichols plans, designs and manages infrastructure projects. It is the first engineering/architecture firm to receive the Malcolm Baldrige National Quality Award.
