The Institute of Asset Management (IAM - <https://theIAM.org>) Certificate is concerned with knowledge and comprehension of Asset Management principles, practices and the business benefits these can deliver. It is an ideal first step towards the IAM Diploma.

It provides employers with the assurances they need that developing professionals understand the context and scale of the Asset Management challenge and are equipped with the basic knowledge, concepts and approaches they need to be able to make a useful contribution from an early stage.

Our training is designed by Asset Management experts and consultants and taught by experienced practitioners. It prepares candidates for the specific demands of the IAM Certificate examination.

Bookings and payment can quickly and easily be made on our website, where you will also find more information about the course instructor. An opportunity to sit the exam will be offered on the final day of the course
